

Appendix A. Annual Campaign Federation Fundraising, 1939-1995 (non-adjusted)

Notes:

1. Data is from Elazar, 408. Elazar discusses the contents of his table on pages 402, 404, and 408.
2. Dollars are all reported in their value of the year in which they were raised (without regard to the Consumer Price Index).
3. I turned the table that Elazar provided into a chart, to more easily show the spikes in fundraising after various crises in Israel.
4. Kelner summarizes this material thus: "In the 1980s, annual campaign revenues averaged \$750 million a year, up from an average \$450 million a year in the 1970s, \$125 million in the 1950s and early 1960s, and under \$50 million during the years of the Depression and World War II" (Kelner, 2013, 34).
5. Based on this raw data, it appears that annual campaign fundraising *increased* by **221%** between 1972 and 1995.

Appendix B. Annual Campaign Federation Fundraising, 1939-1995 (adjusted to 2015 dollar values)

Notes:

1. Data is from Elazar, 408. Elazar discusses the contents of his table on pages 402, 404, and 408.
2. Dollars are all reported in their value as of 2015, based on calculations of the Consumer Price Index from the Bureau of Labor Statistics. The data is from the series titled “Consumer Price Index-All Urban Consumers (Current Series)” found at <http://www.bls.gov/cpi/data.htm>. Series ID CUUR0000SA0. Accessed June 16, 2016.
3. Based on this adjusted data, it appears that annual campaign fundraising *decreased* by **39%** between 1972 and 1995.

Appendix C. Total Endowment Size, North American Jewish Federations, 1975-2013 (non-adjusted)

Note: Data is from Berman, 2015, 23; Bubis, 1995, 91; Kelner, 2013, 34; Wertheimer, 1995, 86; and Wertheimer, 1997, 23.

Appendix D. Federations That Existed in Each Year (1916-2015)

Total Number of Federations

Number of Federations by Region
